

CENANO

FUTURE OF SEALING

www.cenano-hawaii.com

THE #1 SOLAR PANEL CLEANING SOLUTION, SEALANT AND PROTECTANT IN THE WORLD... IS NOW AVAILABLE IN HAWAII!

Many solar rooftop operators believe that the natural cleaning of solar modules through rain and wind is sufficient and therefore no additional manual cleaning is required. However, this is outdated from today's perspective. Non-cleaning of your solar panels often results in irreversible damage to the modules. This results in a reduction in energy efficiency and in shortening the life of your equipment.

To protect your investment and ensure peak performance your solar panels need to be coated with our exclusive NANOTOL solution to maximize your return!

INTRODUCING NANOTECHNOLOGY FROM CENANO HAWAII

Our Nanotol repels grease, dirt, oil and water from glass, metal, plastic, ceramics, paint, wood, leather, chrome and more...

Nanotol is the perfect solution for different areas of your life!

Works on Glass, Plastic, Metal, Ceramic, Stone/Concrete,
Textile, Wood and Car Paint!

KEEP YOUR SOLAR PANELS EFFICIENT FOR A LIFETIME!
